

Manufacturers of Engineers Studs, Shaft Collars, Keys, Pins, Precision Turned Parts and Valves in Steel, Stainless, High Grade Alloy and Non-Ferrous Metals. Precision components produced to customer's specifications, drawings and bespoke requirements in most materials.

Engineers Pins

- Taper pins and solid, split, internal and external extractable dowel pins in Metric and Imperial
- Grove pins to GP range, spring tensions pins, split cotter pins also available
- Available in several materials including mild steel, Keysteel (EN8), and stainless steel to BS 46, ISO 2339, DIN 7977-8 and DIN 258

We carry extensive stocks of finished products, including non-standard items, to customer's specification and for call off. We also stock raw materials enabling us to offer short lead times due to in house manufacturing capabilities.
